

METHODIST CANCER AND AIDS SUPPORT TEAM
"Caring Beyond Boundaries"

FROM: METHCAST
TO : ALL CONGREGATIONS
DATE : 18.09.09

The Methodist Cancer and AIDS Support Teams (METHCAST) in the various Congregations wish to announce that arrangements are being made to provide blood pressure and, where possible, blood sugar checks at the upcoming Congregational and Circuit meetings. The first such occasion will be at the Circuit Pastoral Council meeting in Layou on September 27.

This will provide an opportunity to make the services available to more of our members who may not be able to attend when the regular outreach programmes are organized.

Those wishing to take advantage of the services are encouraged to arrive a few minutes earlier than the starting time of the meeting, in order to facilitate the arrangements.
